ACU·RITE

SETUP REQUIRES:

- Display
- Power Adapter (3 AAA backup batteries recommended)
- AcuRite Iris (5-in-1) Sensor (may be sold separately)

1 PLUG IN DISPLAY AND CONFIGURE SETTINGS

Plug in the power adapter. Once the display is powered on, configuration will begin automatically. Use the ∧ **Up** and ∨ **Down** buttons to select between options, and press the **set** button to confirm your selections.

- 12 or 24 Hour Clock Display
- Clock Hour
- Clock Minute
- Calendar Month
- Calendar Date

- Calendar Year
- Temperature Units (°F / °C)
- Wind Speed Units
  (mph, km/h, knots)

- Rainfall Units
  (inches / mm)
- Pressure Units
  (inHg / hPa)

You can configure these settings at any time by pressing the **set** button.

2 INSTALL SENSOR BATTERIES

In the outdoor sensor battery compartment, install four AA alkaline or lithium batteries. The display should automatically sync with the sensor and start showing readings within a minute.
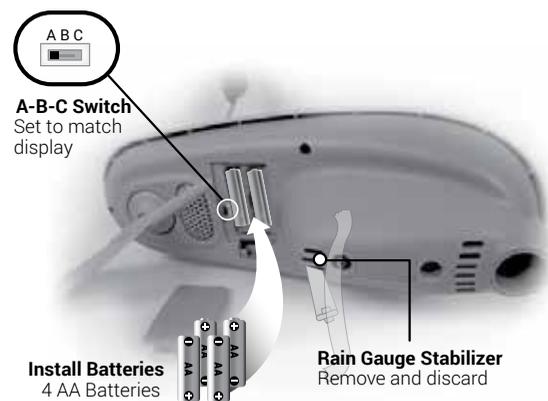

NOTE: In the battery compartment of the sensor, there is a small A-B-C switch that should match the selection on the Display, located in the battery compartment. By default, the selection is "A" and shouldn't need adjustment.

3 MOUNT SENSOR

Find a suitable place to mount the outdoor sensor:

- At least 5 feet (1.5 meters) off the ground
- Front solar cell facing south
- Away from heat and humidity sources
- Level for accurate rain reporting using bubble level on top of sensor

Once the sensor is mounted, remove the rain gauge stabilizer from sensor.

Use Wi-Fi to Connect to My AcuRite® for Remote Monitoring

SETUP REQUIRES:

- Display and AcuRite Iris Sensor
- 2.4 GHz Wireless Network
- Phone, Tablet, or Computer with Wi-Fi

① CONNECT TO DISPLAY WI-FI

Connect to the Wi-Fi signal coming from your Display using your phone or Wi-Fi compatible device.

② ACCESS WI-FI SETUP PAGE

Open a web browser on your device. Type "192.168.4.1" in the address bar and hit enter to access the AcuRite Wi-Fi display settings website.

③ ADD YOUR WI-FI CREDENTIALS

Select your Wi-Fi network name and enter your network password. Press "Save". Once your credentials are successfully entered, reconnect to your normal Wi-Fi.
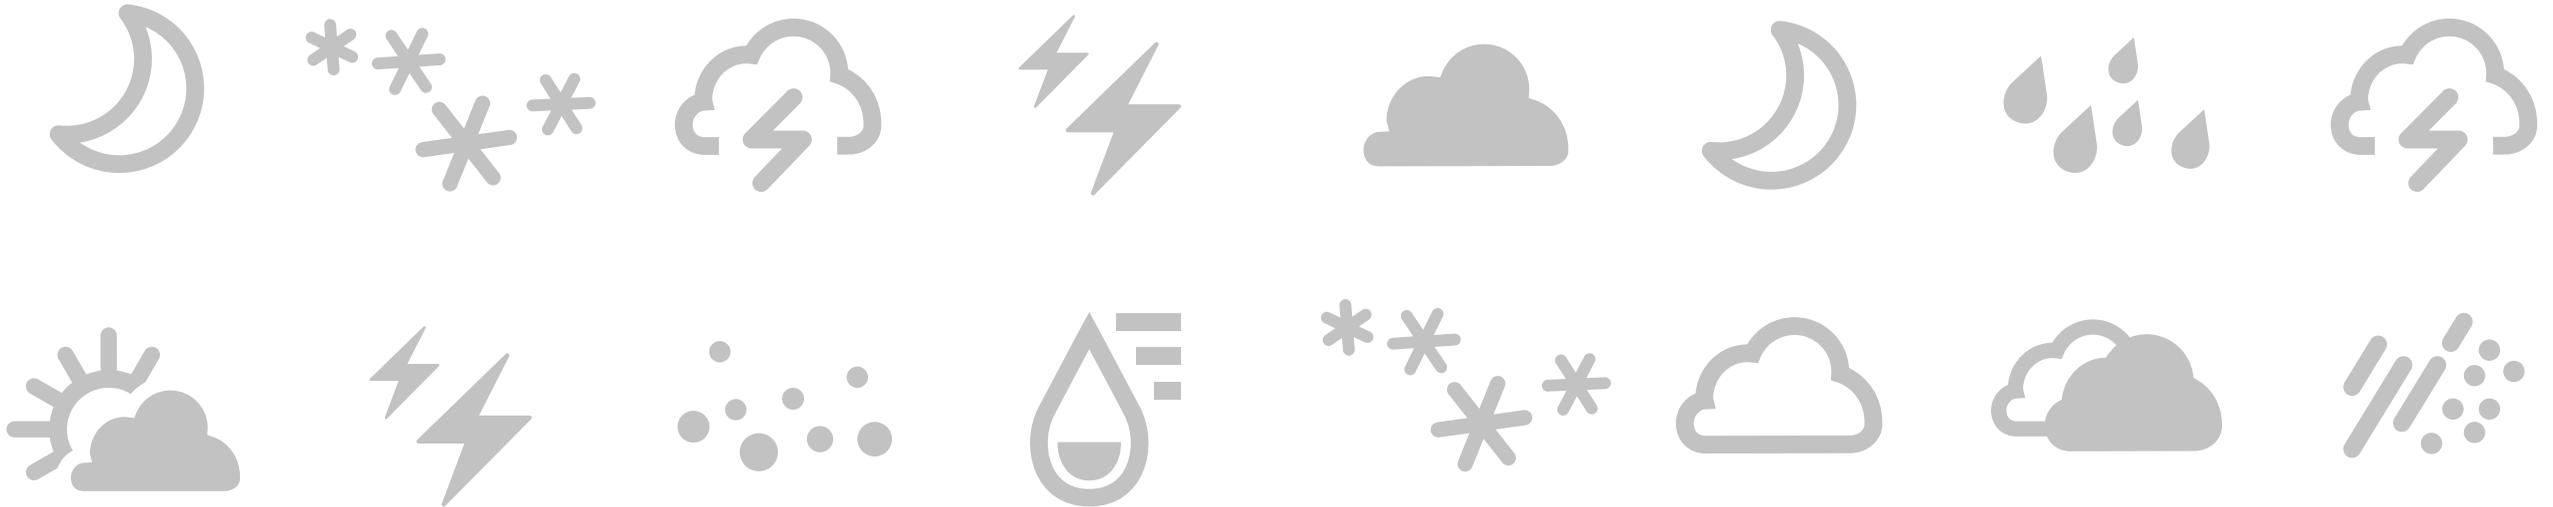

④ SET UP YOUR MY ACURITE ACCOUNT

Download the My AcuRite mobile app or visit **www.myacurite.com** to complete setup. You will need the device ID located on the back of the display or inside the battery compartment.

ADDITIONAL NOTES

The Wi-Fi set up page is available for 30 minutes after the display is powered on. Press the **set** button to reactivate the setup page at any time.

To retain Wi-Fi configuration details, backup batteries in the display are strongly recommended. The display can be power cycled at any time to clear Wi-Fi credentials.
